

Specifications

2008 PC-12/47 Serial 865

N215DK

The Pilatus PC-12 has gained a reputation for outstanding versatility, performance, reliability and operational flexibility. As such, it is one of the most popular turbine-powered business aircraft on the market today. Over 1500 aircraft have been sold. In operation around the globe, the PC-12 has found popularity in a number of roles— executive transport, cargo, air ambulance, airline, and government special mission applications. Whether it is the large cabin, single pilot operations, long range, low operating costs, high speed, short-field capability, or precision Swiss engineering and construction, customers find the perfect balance of features to serve their needs in the PC-12.
